4th Annual Charity Golf Outing

to benefit

Monday, September 13, 2010

*Hopewell Valley Golf Club
Hopewell, New Jersey*

Welcome to our 4th Annual Charity Golf Outing. We would like to take this opportunity to thank you for joining us to support the Bonnie Brae School and Residential Treatment Center for Adolescent boys. Organizations like Bonnie Brae rely heavily on contributions from individual donors like you, and the fact that you are here today is a testament to your generous spirit.

We would also like to thank the Hopewell Valley Golf Club for all of their help and support to make this event a huge success for us. We hope that you will take advantage of all the amenities this club has to offer including the practice driving range, putting green and locker room facilities.

Huge thanks to all of the local organizations and businesses that have placed an ad, sponsored a hole or donated a prize for our raffle. As you read through this program, which, by the way, also contains important information about the events of the day, please notice the ads and do your best to support those businesses as they have supported us and Bonnie Brae.

Lastly, thank you to William Powers, Nancy Hoffman and Ann Zouvkis at Bonnie Brae for working with us to make today's event possible.

Good luck!

Thank you,

Roy Williams, ChFC

Scramble Format

Today's game will be played in scramble format. The procedure for scramble format is outlined below.

1. Each member of the team tees off.
2. The team decides which of the tee shots is the best one to play.
3. The players pick up the other balls and proceed to the location of the best drive. From there, they each play their second shot.
4. The best of the team's second shots is then selected. From there, they each play their third shot.
5. This procedure is continued until the ball is holed out.
6. At the end of each hole, the score for the group is recorded on the scorecard. There is only one score per hole.

Note: To ensure an even flow to today's game, mulligans may not be used on putts.

Hole in One Contest

About Bonnie Brae

Since 1916, Bonnie Brae has been helping boys to overcome their personal and family difficulties and build new futures as good citizens – productive in their families and home communities. Located on a 100-acre main campus in Bernards Township, NJ, Bonnie Brae is a fully accredited, nationally recognized psychiatric residential treatment and special education center serving 97 boys, ages 11-18, each year. At any given time, Bonnie Brae's main campus is home to 92 boys. In addition, a special Community-based Transitional Residential Treatment Program in New Brunswick, NJ provides independent living skills to those youth transitioning from residential treatment back to the community.

The boys served at Bonnie Brae come from throughout New Jersey. Most of them have been referred by the Department of Children and Families (DCF) and arrive at Bonnie Brae after an average of 8 out-of-home placements including juvenile shelters, foster homes and psychiatric hospitals. They all have behavioral, psychiatric, school and community problems that outpatient services, group homes and other residential treatment centers have been unable to treat. At Bonnie Brae, they receive the residential treatment services, clinical services, family counseling and education they need to get their lives back on track.

Small Victories. Every Day.

Today's Contests

Longest Drive

- Every player in the event will hit a drive on hole #5 during the course of the day
- The player who hits the longest drive that stays in the fairway will be the winner
- To record your drive – use the sign that is stuck in the fairway
- Place your name on the card and stick the sign back in the ground where your drive ended up

Closest to Pin

- Every player will hit a tee shot on hole #13 during the course of the day
- The player who hits their tee shot closest to the hole will be the winner
- To record your tee shot – use the sign that has been left at the green
- Place your name on the card and using the tape measure provided, record the distance from the hole
